

# PAN AMERICAN ROUND TABLE

HOUSTON, TEXAS

*"One for All and All for One"*

*Scholarship Reception*

*May 23, 2015*

Dear Guests, Donors and Members:

This year marks the 75<sup>th</sup> Anniversary of our Houston-Pan American Round Table. With Tables represented in 16 countries in the Western Hemisphere including Puerto Rico, next year PART celebrates its 100<sup>th</sup> Anniversary.

The Pan American Round Table was founded on the premise that it would be a dynamic force in promoting knowledge, friendship, and understanding among the women of the Americas.

There is no greater place than these United States where people from all nationalities, heritages and cultures gather to elevate the human race. Our small group of dedicated women have demonstrated and achieved that vision today.

Thank you to our generous donors and my PART sisters who focus on propelling talented young women to achieve great heights. Your financial support does more than provide financial assistance, it provides hope, it paves a path to a better future and it sows seeds whose harvest will surpass the planting.

To the members of the Scholarship and Arrangements Committee, to Susan Huston, Belinda Keylani-Postman, Susan Sanchez, Adrienne Moreno, Martha Inskeep, Rosalinda Peterson, Dr. Rosana Searce and Hannah Peterson, thank you for your time and assistance in identifying our finalists and coordinating today's event.

To Irma and Roberto Gonzalez, your unwavering support and generous spirit helps to sustain our program.

And to my husband Carlos Sepúlveda, thank you for your love, patience and support. Until next year, please continue to give generously of your time and resources in support of the women of the Americas.

Un Abrazo,

Maria Castillo Sepúlveda  
2015 PART Houston Scholarship Director

75TH ANNIVERSARY  
PAN AMERICAN  
ROUND TABLE - HOUSTON

**WELCOME**

SUSAN HUSTON, TABLE DIRECTOR

INTRODUCTION OF 2015 SCHOLARSHIP RECIPIENTS

**INTRODUCTION GUEST SPEAKER**

MARIA C. SEPÚLVEDA, SCHOLARSHIP DIRECTOR

**GUEST SPEAKER**

MR. FELIX FRAGA, VICE PRESIDENT EXTERNAL AFFAIRS  
NEIGHBORHOOD CENTERS, INC.

**PRESENTATION OF AWARDS**

CLOSING

## - COLLECT -

Create in us, Almighty God,  
A thirst for greater knowledge  
Of these our neighboring countries.  
Teach us that through knowledge  
We gain understanding,  
And that understanding leads to friendship.  
Thou hast shown us, O Lord, what is good.  
Enable us, we beseech thee,  
To perform what thou must require,  
Ever to do justly,  
To love mercy  
And to walk humbly with our God.  
Amen.

---

Crea en nosotros, Dios Todopoderoso,  
La sed de mayor conocimiento  
De nuestras naciones vecinas.  
Enséñanos que con el conocimiento  
alcanzamos comprensión,  
Y que la comprensión nos trae amistad.  
Señor, Tú nos has enseñado a ser buenos.  
Permítenos practicarlo tal como Tú lo deseas,  
Con justicia, con amor,  
Y a caminar humildemente contigo.  
Amén.

## GUEST SPEAKER

### FELIX FRAGA Vice President of External Affairs

Felix Fraga, Vice President of External Relations for Neighborhood Centers Inc. since 1990, is responsible for developing and maintaining relationships with individuals, companies, and foundations on behalf of the Agency. Fraga has worked continuously for Neighborhood Centers since 1946, beginning his career with the Agency as a youth worker at Rusk Settlement, which later became the Kirkland-Ripley Community Center. In 1970, he was promoted to Center Manager over Ripley House Community Center. His continued support and acclaim throughout the Houston Community have served Neighborhood Centers Inc. in the many community improvements and programs undertaken by the Agency.

In addition to his service to Neighborhood Centers and its clients, Fraga has served on numerous volunteer boards and committees, as well as on a variety of task forces and councils. Fraga is particularly well known for his work to improve the social, economic, and physical surroundings of Houston's Second Ward. He is a member of the Houston Committee for Private Sector Initiatives, Houston Housing Development Corporation, the United Way Campaign, and the Housing Finance Corporation. He has also served on the Chinquapin School Board, Cultural Arts Council of Houston, Neighborhood Housing Service, and the Houston Housing Authority. He was also a member of the Board of the Houston Independent School District for four years where he helped to increase parent participation within the entire School District.

Fraga has been honored for his tireless service and efforts throughout his career. In 2000, he was given a Lifetime Achievement Award from the Houston Chapter of the National Association of Social Workers for his work in improving Houston's inner city and received the Metro Salute to Hispanic Families. Fraga and two of his brothers, Lupe and Angel Fraga, were honored with the Community Service Award by the Mexican American Bar Association in 2001.

A member of the National Association of Social Workers, he earned his Bachelor's degree from the University of Houston and his Master's in Social Work from Our Lady of the Lake College in San Antonio.

# Ana Azua-Sanchez

## MAUDE CASHIN SCHOLARSHIP

Ana possesses a study ethic that has earned her the rank of 2nd in her class of 327, and named "Most Dedicated Student of 2015" at Jefferson Davis High School. Although born in Texas, Ana spent most of her childhood summer and winter breaks in a little town called San Luis in Mexico surrounded by family and friends. These are treasured moments she will never forget and instilled in her the dream of world travel, discovering new places and cultures.

During her junior year, Ana was awarded a scholarship allowing her to visit Yale University and Wesleyan University during summer vacation. She attended classes, completed study assignments and experienced a "taste of college life".

Besides managing her high grade point average, Ana contributes to the family finances by working at Burger King and baby-sitting. She enjoys caring for children, a passion she developed early in life by caring for her younger brother and cousins. Ana also volunteers at PUGH Elementary to help children enhance their literacy skills. Helping children is her calling; it is no wonder that Ana's career choice is Neonatal nursing, a career where she knows she can comfort, support and help heal the vulnerable newly born. Anna plans to attend Texas A & M University at College Station.

# Sanjuana Banda

## SUSAN MUTH MEMORIAL SCHOLARSHIP

Sanjuana will graduate in May from East Early College High School with a 3.74 GPA. She has been interested in learning about typography, design, space and colors since she was a very young girl. Her goal is to graduate from the University of North Texas with a Bachelor's degree in Communication Design. She wants to become a Graphic Designer with the ultimate goal of one day, starting her own company. She is the first generation from her family to attend college. She says the idea of having the chance to go to college to learn about a subject she truly enjoys is marvelous.

During her high school years, Sanjuana has held a job at Kroger and commuted to work and to school by Metro which has presented many challenges. She has seen a good deal of poverty in her neighborhood which she is determined to rise above. She believes that East Early College High School has enabled her to have more chances in life because she has been surrounded by individuals interested in learning and prospering. She believes one of the great advantages that came from attending East Early College High School was her opportunity to take college classes.

Sanjuana looks forward to attending the University of North Texas in Denton in the fall and is very excited about studying Communication Design.

## *Marienellys Delgado Mendez*

ENRIQUETA CHAVEZ  
MEMORIAL SCHOLARSHIP

Marienellys was born in Puerto Rico, but spent her early formative years in Rhode Island. At the age of seven and with the help of very good doctors, Marienellys was able to improve and learn to cope with her diagnosis of Tourette's syndrome. Moving to Texas while in middle school presented many challenges for the once shy young girl. However, by the time Marienellys entered Dulles High School in Sugarland, Marienellys interests and friendships expanded. Marienellys involvement with the National and Spanish Honor Society, Debate Team and Junior ROTC helped her develop leadership skills that she always aspired to have. Her passion for the ROTC enabled her to achieve Flight Assistant Commander and Support Squadron Commander within seven months, a feat that typically takes three to four years.

Having lived through homelessness and other challenges, Marienellys has been able to achieve much success academically graduating near the top 25% of her class and was honored with the National Sojourners Award for her patriotism and encouragement of patriotism among her peers.

Marienellys will attend her "dream school" of Texas A & M to pursue a degree in biology with the goal of attending Medical School to become a Pediatrician.

*PART Houston believes in YOU!*

## *Evelyn Guajardo*

### JANE NELSON MEMORIAL SCHOLARSHIP

Evelyn will graduate in May from Carnegie Vanguard High School with a 3.84 GPA. She has been interested in helping others ever since she could remember. She has volunteered at a local food bank, assisted with child care at the Neighborhood Center and advocated for a cleaner environment. Evelyn has wanted to be a medical doctor since she was nine years of age. She says that calling was sealed when she was selected and attended the Perry Outreach Program during high school. Through that program, Evelyn was exposed to “hands-on” activities, mock surgeries and other applications used by orthopedic surgeons. She met some of the most prominent women in the field and gained knowledge, hope and confidence that she could reach her goal of becoming a doctor.

Evelyn feels that she entered a top notch high school a little unprepared. At first, she was intimidated but soon jumped to the challenge, learning new study habits, managing school work and extracurricular activities.

As a senior, she has taken 5 AP classes plus Anatomy & Physiology and believes that the science classes take her a step closer to her long-term goal of becoming an orthopedic doctor. She believes in making something happen instead of waiting for something to happen, and wants to be a person who makes a difference. Evelyn will attend the University of Houston in the fall where she will study Biomedical Engineering and hopes to ultimately pursue a medical degree followed by a specialty in orthopedics.

## *Laura Guerra*

### DR. ROSANA SCEARCE SCHOLARSHIP

Laura is graduating in the top 16% of her class at Dulles High School in Sugarland. She is a member of the National Honor Society, Spanish Honor Society and current Student Council Secretary. She is the Founder and President of the Psychology Club. Laura recalls a childhood guided by three older brothers, participating in gymnastics, playing volleyball, a trip to Disney land and Arizona, but those are vague remembrances to her.

Laura has experienced much tragedy and hardship in her young life. As Laura states, "the death of a parent is a traumatic thing, but I have not let it get the best of me." Laura is determined to live life proactively and make her late father and entire family proud of her accomplishments.

Laura's dream is to become a Psychologist, so that she can help people work through issues, by being supportive, non-judgmental and a good listener. Laura has been accepted to the University of Texas at Austin and will do everything in her power to be able to achieve her goals and to give back to her mother. Laura states, that "she will rely on her past to be the motivation for the present and the present to guide her into the future".

## Patricia Janssen

QUANEX BUILDING  
CORPORATION SCHOLARSHIP

Patricia will graduate in May from St. Agnes Academy in the top 25% of her class with a 3.81 GPA. At St. Agnes, Patricia has been a member of the National Honor Society, National Spanish Honor Society, Tennis Team, Field Hockey Team, Volleyball Club and Swim Team. She has been named a National Hispanic Scholar and was on the Honor Roll in grades 9, 10 and the High Honor Roll in grade 11. Additionally, Patricia has volunteered at the Houston SPCA, an opportunity that allowed her to indulge her great love for animals. She has also held retail jobs and served as a servant leader on a mission trip to Kenya where she worked on several projects at an orphanage in Kisumu.

Patricia has a younger brother with Down's syndrome and as a result has a special understanding of children similarly challenged. She spent a significant amount of volunteer time during her high school years, working with special needs children, teaching them tennis and basketball in various settings. Patricia has dealt with a fair amount of insensitivity from others in response to her brother's disability. She feels this has served to accelerate her own confidence as well as encourage his.

Patricia has been described as a highly detail-oriented learner, a person of persistence and determination when it comes to her studies. She plans to study Biology at the University of Texas, with the ultimate goal of becoming a veterinarian or a marine biologist.

*PART Houston believes in YOU!*

# Rosaura Martinez

ANGELINE GONZALEZ  
MEMORIAL SCHOLARSHIP

Rosaura will graduate in May from Milby High School and plans to study International Business at the University of Houston. She ranks 21 out of 440 students with a 3.87 GPA. As a senior, she has served as President of the Math Honor Society, Treasurer of the English and Spanish Honor Societies. She has also been a member of several organizations including La Raza Student Alliance and Student Council.

As a member of the Petroleum Engineering program at Milby, Rosaura participated in a summer internship for Schlumberger. The internship allowed her to experience working in a professional environment and stirred in her a yearning to learn about other cultures.

Rosaura has worked for Burger King for the past two years. Bothered by all the food that must be routinely thrown away, in 2014 on Thanksgiving Day, she made burgers from the meat that was still good yet scheduled to be tossed and took them to a downtown homeless shelter. She said she felt such an indescribable warmth in her heart after following through on that idea.

Rosaura credits her parents with impressing upon her the value of an education and giving her the guidance and support to accomplish her goals. She will be the first in her family to graduate high school and to go to college.

# Andrea Olvera-Morales

CASTILLO - SEPÚLVEDA  
FAMILY SCHOLARSHIP

Andrea will graduate in May from Memorial High School, 49th out of 597 students with a 6.4 GPA. From an early age, Andrea served as an English translator for her mother and the rest of her family after immigrating to the United States. She believes this responsibility not only caused her to improve her own command of English more rapidly but also helped her conquer her fear of failure. Andrea said that as family translator she became a leader in her

family, which she now realizes helped her naturally fall into leadership roles outside her family.

Among her many high school honors, Andrea has been a member of the French Honor Society, Tennis Team, Mu Alpha Theta, Collegiate Challenge Program, Dance, Health, Occupations Students of America Club and Drill Team Manager.

Andrea believes her mother sacrificed her career for her family and greatly admires her. She says her mother is a strong woman and that she gave that same strength to her. Andrea plans to attend the University of Texas in the fall with the ultimate goal of going to medical school.

*Jannet Rivera*

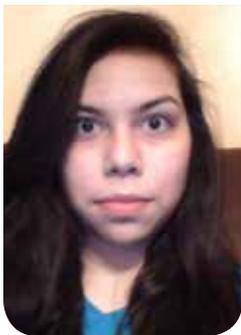

VIVAR FAMILY SCHOLARSHIP

Jannet holds herself to a very high standard and tries to do everything to the best of her ability. Jannet is within fractions from tying to graduate from YES Prep Southwest Campus as Valedictorian. She is an AP Scholar with Distinction and involved in many extracurricular activities.

Jannet credits her parents for creating a loving and supportive environment for their family. Although they speak of past hardships, Jannet only remembers the fun she had playing outside with her siblings, making up imaginative games. She is thankful that she was taught that education was the ticket to a brighter future. She recognizes that her life experience is what has developed her into the person that she is, curious, hardworking, appreciative, and with a mindset of becoming the best person that she can be.

Jannet will study Biomedical Engineering at the University of Rochester, in New York, focusing on prosthetic design and engineering.

*PART Houston believes in YOU!*

# Magaly Tapia

## ALAN C. SHEPPARD MEMORIAL SCHOLARSHIP

Magaly is graduating from Eastwood Academy in the top 12% of her class. She is class President and a member of the Rugby and Volleyball teams. She has been actively involved in many programs at school, which have afforded her the opportunity to attend summer programs at Cornell and Rice Universities. Through the National Hispanic Institute, Magaly was able to attend a legislative summer program in Panama City, Panama, where she met many like-minded youth eager to learn and succeed in life.

According to Magaly, it is her experience volunteering at her church parish, Queen of Peace, for the last six years, that has shaped her into the mature, responsible and focused person she is today. Magaly has served the church in progressively responsible positions over the years, beginning with running errands to her current role, preparing students for First Holy Communion. Magaly not only helps children learn and grow in their faith, but she also uses this opportunity to engage and encourage youth in her community to do well in school, complete high school and pursue a college education.

Magaly is an example to her community about the fruits of hard work and the importance of preparation. Magaly's goal is to become an Immigration Lawyer to help individuals who are separated from their family and hopes to be the influence of change. Magaly will attend the University of Houston.

*PART Houston believes in YOU!*

PAN AMERICAN  
ROUND TABLE  
IS PLEASED  
TO PRESENT  
  
2015  
RETURNING  
SCHOLARS

## Casey Alvarado

### PART MEMBERSHIP SCHOLARSHIP

Casey Alvarado is a third year PART Scholarship winner studying electrical and computer engineering at the Franklin W. Olin College of Engineering in Needham, Massachusetts. Casey writes that she is immensely happy to be at Olin College and she loves engineering innovations, the cool curriculum and the passionate people that surround her. Her main motivation during her sophomore year is engineering by people, for people. She is passionate about finding solutions to challenges that people in need encounter.

The fall semester of 2014 was very challenging for Casey. In addition to her 20 hour engineering course load, Casey signed up to direct and choreograph a student production of Xanadu. But despite it all, Casey's grades were great which speaks to her work ethic and drive to realize her dreams and do all of the things that she loves. Currently, Casey is managing 16 credits and participating in dance, volleyball, Engineering Discovery for small children, Society for Women Engineers, National Center for Women in Technology (WIT) and getting to know new people.

Casey says that many cultures and ethnicities are underrepresented at Olin. She has decided to address this issue by becoming involved in choosing the next Dean of Admissions at Olin and reaching out to other minority students to show them that Olin is awesome for people of all races!

## Amanda Cruz

### PART MEMBERSHIP SCHOLARSHIP

Amanda Cruz is a fourth year recipient of a PART Scholarship, and is on track to graduate from the University of Texas at Austin in 2016 with a B.S. degree in psychology and a minor in history. With the goal of attending medical school, she will take the MCAT this April, and all of her PART sisters will be rooting for her.

While attending U.T. she has distinguished herself academically as well as socially, having attained excellent grades and participated in numerous

extracurricular activities such as volunteering at St. David's Medical Center, the Austin Pregnancy Resource Center, Girl Advocates, and the Global Medical Brigade. Amanda has also been honored as a member of the Bridging Disciplines Program for which she will earn a Public Health certificate in Social Inequality and Health Policy. She sees herself as an instrument of change for her community and the world at large.

Amanda is a model of a PART Scholarship recipient who sees higher education as the path to success. She plans to give back to those who have supported her along the way by becoming a doctor.

*Emily Flores*

PART MEMBERSHIP SCHOLARSHIP

Emily is a returning scholar who has just completed her freshman year at Texas A&M where she is majoring in biochemistry. Emily dreams of becoming a veterinarian one day. She writes that "As a Latina, I hope I can impact the Hispanic community by bringing them a veterinary clinic in which they will be able to speak comfortably in their native language, and to provide services they otherwise had difficulty obtaining."

This year Emily volunteered with the Haven for Children and Horses as a member of the Pre-Vet Society at Texas A&M University. She has also been able to broaden her interests in the veterinary field by attending guest presentations given by renowned equine veterinarians. Through these seminars she has formed friendships which have inspired her to work much harder to get to the end goal.

One of the more unusual things Emily has done this year has been becoming part of the Asian American InterVarsity organization. This Asian Christian organization has allowed her to view different cultures in a new light. She also auditioned for the Symphonic Winds Band which is the 2<sup>nd</sup> band at A&M out of 4 bands. She looks forward to band every day and plans to stay involved all 4 years she is at A&M. Finally she has learned that college isn't really about how smart you are but how well you manage your time and how much effort you put in to your studies.

*PART Houston believes in YOU!*

## Genesis Flores

DR. WALTER AND  
MRS. YANNE MOREANO SCHOLARSHIP

Genesis is a returning scholar. This year she was honored to become the first in her family to attend college. The first challenge she faced was the decision to remain at home and attend the University of Houston rather than her dream school of Texas A&M. Due to economic hardships she made the very mature decision to stay local rather than allow her family to go into major debt on her behalf. She will be majoring in Nutrition to prepare herself for a future as an Obstetrician Gynecologist. She also joined the Challenger program and the First Generation Coogs program. Both of these programs have provided mentoring to help her learn study techniques, meet new people and participate in several community service projects.

Genesis says that no matter what comes her way she will always find a route to fulfill her dreams for the future. The love for her family and school have given her strength. She writes that her parents couldn't be happier of her achievements. Her father has worked very hard and given up many things to be able to give her the best that he could and she is proud to say that one day she will become a doctor because of him.

## Daisy Gomez

MOULEDOUX FAMILY SCHOLARSHIP

Daisy Gomez is a third year PART Scholarship winner and proud Texas Longhorn. She writes: "How many people are able to say they have achieved their dreams? The answer: only the One's that have worked hard enough to guarantee their dreams become reality, and have not let their dreams simply remain as fantasies."

Daisy has decided to pursue Supply Chain Management at the prestigious McCombs School of Business. She has learned that College is a place where she is able to interact with diverse professionals and students to learn more about herself and prepare for a future career. Last spring she applied to the Energy Management Program and was fortunate enough to be accepted. Over the summer she stayed in Austin and took classes related to the oil and gas industry. This program has opened up her eyes about pursuing a career with the oil and gas industry. Then, this past fall she also applied to McCombs Supply

Chain Management Study Abroad Program and was selected. As a part of this program she will be traveling to Los Angeles, California and Hong Kong this summer to take two classes related to her major.

Daisy is one step closer to achieving her dream of completing college. She is blessed to be at such an amazing school and have the support of her family and organizations like PART.

## Jessica Haroldson

### PART MEMBERSHIP SCHOLARSHIP

Jessica Haroldson is a third year PART Scholarship recipient pursuing a double major in Political Science and Nursing at the University of Houston. After her second year in college, she has completed the last of her political science courses and has met all her prerequisites for nursing school including passing the entrance exam for the program since she earned college credit while still in high school.

Jessica has managed a very challenging academic program and has made the dean's list each semester while at U. of H. As part of the Nursing Dual Degree Program, she believes her education in political science has opened her vistas onto other cultures and ways of thinking that will enrich her practice as a registered nurse. She has contributed to her community as a volunteer in several programs including a civic internship program and at the local food bank.

Jessica's ultimate goal at this point is to earn a master's degree in nursing focusing on pediatrics or to become a Physicians' Assistant. In the future she envisions serving in public health or Doctors without Borders.

## Emily Lechuga

### BELINDA KEYLANI POSTMAN SCHOLARSHIP

Emily Lechuga is a fourth year PART Scholarship recipient who is on track to graduate from Texas A&M University in May of 2016 with a double major in Political Science and Spanish and double minors in Sociology and Women's and Gender Studies. She plans to take the LSAT this June in anticipation of attending law school

after she graduates.

Among Emily's goals is to eventually become a member of the HISD School

Board in order to give back to her community and help motivate kids like herself to pursue higher education as a means of achieving success. She is passionate about inspiring young Latina women about the value of a university education and is a great model of how determination and hard work along with support from mentors can have amazing results.

## Mayra Romero

### DR. JANET MAYORGA SCHOLARSHIP

Mayra Romero is a fourth year PART Scholarship recipient who is completing a B.S. in Nursing at the University of Texas at Austin in May of 2016. Mayra has maintained excellent grades while actively participating in numerous volunteer activities such as the Hispanic Nursing Students Association, the Association for Latino Professionals in Finance and Accounting, and the Jesse Jones Horticultural Society to name a few. Her eventual goal is to become a Family Nurse Practitioner, but upon graduation she hopes to work in either the emergency department or the telemetry unit of a major hospital. Mayra has a special interest in cardiac care, especially for women.

As a first generation college graduate, she attributes her success in college to the emotional support she has received from her mother, who is a single parent sending both her and her twin brother to college at the same time, and to the financial support of PART, which has assisted her with college expenses.

## Claudia Ruiz

### PART MEMBERSHIP SCHOLARSHIP

Claudia is a returning scholar who is currently in her first year at Bryn Mawr College. Claudia states that Bryn Mawr has made her a well-rounded, diverse, and curious individual. She has come to learn that it is okay to continuously ask questions and challenge the idea and not the person. She has participated in a dancing group and joined a club that volunteers at a local elementary school to teach students how to create art.

Claudia writes that it is critical that she let PART know of the amazing impact

they have had on her life. She writes: "After receiving the scholarship at the PART luncheon last year a wonderful woman named Joan O'Leary came up to me and asked "Are you the Bryn Mawr girl?" in which I responded "yes". As the conversation carried, I came to find out that she had attended a private school across the street from Bryn Mawr College and was very familiar with the school and the area. She later told me that her son and his family lived twenty minutes away from the College and that she would be more than willing to get me in contact with her daughter-in-law. As months passed and the time came near for me to move to Bryn Mawr I met with Joan's daughter-in-law and we became the closest of friends. I could have not been more honored and blessed to have come across such wonderful people. Joan's daughter-in-law, Molly, has continuously dropped and picked me up from the airport and has been here for me when homesickness has hit me the most. She has been a mother figure for me, and has dedicated so much of her time. If it wasn't for PART and meeting such an amazing individual, living here and attending Bryn Mawr would not be the same."

## Karla Villanueva

### SUSAN MAYORGA HUSTON SCHOLARSHIP

Karla Villanueva is completing her first year at Austin College, in Sherman, Texas and is a second year recipient of a PART Scholarship. Karla says that going away to college has enabled her to grow as a person in ways she had never anticipated and that the PART funds were instrumental in this. We are happy to award Karla another scholarship this year as she continues to excel in academics and extracurricular activities.

After participating on a team that designed and built computer games, she has decided to major in computer science. She has an ongoing love of Japanese, so she plans to pursue a double major in both. Karla sees foreign language as a useful component and practical segue into the world of business. Karla doesn't seem to be hesitant in taking on new challenges and has shown herself able to adapt to new surroundings away from home. She is eager to share her story with other women who may be considering computer science as a career.

In her spare time, Karla joins the members of the Asian Student Association for various projects including one to bring freedom to the people of North Korea.
